**Statement:**

We are the biggest state in the union, it's time we started acting like it. I want to better our schools by doing away with the Federal Board of Education and bring it down to the state level where school districts and parents actually have better control over the content of our children's education. I would like to bring a voucher system to the state so every child can get the education they deserve. Alaskan's can carry in any state; just like your drivers' license allows you to drive in any state. I would like to end the CCW requirement most states have and make it any citizen can carry however they want. 2<sup>nd</sup> Amendment says will not be infringed, so let's make it actually be carried out that way. I want to bring the land that is within the borders of Alaska; to be controlled by Alaska. (Tribal lands will remain with the federal government) Federal lands that are controlled by the BLM will be managed by Alaska. We will no longer have to ask the fed if we want to open the land to hunting or harvesting of minerals & Timber. We need to take control of our future. We need someone who will stand up to Washington and call them out when they don't follow the laws. We need leadership that won't buckle to the PC police or special interest groups just because they donated money. I will stand up for freedom Will you stand beside me?
